ABOUT US

Founded in 2016, R-Ladies Paris is a local chapter of R-Ladies Global, a global organization that promotes diversity in the **#RStats** community and provides a friendly support network for R enthusiasts worldwide.

Our mission is to bring R users together, fostering a collaborative environment where individuals can learn from each other.

To ensure accessibility, we regularly record our meetups and share replays on our YouTube channel. We also maintain a dedicated GitHub page which provides comprehensive summaries of the meetups we organize, and is available [here](#).

R-Ladies Paris is committed to providing a respectful, harassment-free community for everyone. You can find our CoC [here](#).
