- OVERVIEW OF OUR MEETUPS IN 2025

ABOUT US

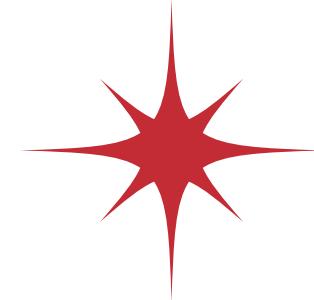

Founded in 2016, R-Ladies Paris is a local chapter of R-Ladies Global, a global organization that promotes diversity in the **#RStats** community and provides a friendly support network for R enthusiasts worldwide.

Our mission is to bring R users together, fostering a collaborative environment where individuals can learn from each other.

To ensure accessibility, we regularly record our meetups and share replays on our YouTube channel. We also maintain a dedicated GitHub page which provides comprehensive summaries of the meetups we organize, and is available [here](#).

R-Ladies Paris is committed to providing a respectful, harassment-free community for everyone. You can find our CoC [here](#).

Workshop

The image shows a screenshot of a meetup event page. At the top left is the R-Ladies Paris logo with the URL meetup.com/r-ladies-paris/. To the right are social media sharing icons for Facebook, Instagram, LinkedIn, and Twitter. Below these is a circular profile picture of Maëlle Salmon, a woman with glasses and short hair. A text box at the bottom right identifies her as "Maëlle Salmon R(research) Software Engineer & Blogger". On the left, there's a Zoom video camera icon with the word "zoom" underneath it. A callout bubble in the center provides the date and time: "Vendredi 11 avril 2025 12H00 - 13H00 (CEST / GMT +2)". The main title of the event is "Un meilleur historique git, sans difficulté".

Recording Video

This meetup explains why it's important to go through commits, how to create them easily in practice, and how the R package saperlipopette can help users train safely while sharing Git tips and questions.

PROGRAMMATION R EFFICACE EN TEMPS ET EN MÉMOIRE

 Webinar

Ladies R Addicts

Programmation R efficace en temps et en mémoire

Vendredi 27 juin 2025
12H30 - 13H30 (CEST / GMT +2)

Evénement en français

Toby Dylan Hocking
Associate Professor Of Computer Science

Recording Video

This meetup discusses common performance issues in R, such as long computation times and memory limitations when working with large datasets. It presents strategies for refactoring R code to improve efficiency, including profiling to identify performance bottlenecks and benchmarking different code versions using the atime package.

USING GENERATIVE AI IN R : CAPABILITIES & OPPORTUNITIES

November 30, 2025

04:00 pm - 05:00 pm (CET / GMT +1)

This webinar provides a high-level overview of how generative AI can be integrated into R, highlighting the growing role of large language models in writing, improving R code, and adding AI-powered features to applications. Participants gain a clear understanding of the R-AI landscape and leave with useful packages, resources, and tutorials.

The screenshot shows the homepage of the R-Ladies Paris website. At the top is the R-Ladies logo featuring a white 'R' inside a blue circle with the Eiffel Tower silhouette behind it. Below the logo, the text '@rladies_paris' is displayed, followed by the subtitle 'is a local network of R Ladies Global, based in Paris.' A contact email address 'paris@rladies.org' is listed with an envelope icon. A section titled 'Where to Find Us?' lists various social media and professional platforms with their respective icons: LinkedIn, Meetup, YouTube, Bluesky, and GitHub.
